

MicroStrategy is a provider of business intelligence software for Global 5000 organizations. Since 1989, the company has specialized in helping businesses transform their extensive operational data into actionable information. MicroStrategy's business intelligence platform, MicroStrategy 9™, gives organizations solutions to their query, reporting, and advanced analytical needs via web, wireless, and voice. With thousands of satisfied customers and over 500 technology and integration partners, MicroStrategy 9 has been proven the best, most complete solution for business intelligence. Our mission is to empower every business user to make more informed decisions by providing timely, relevant, and accurate answers to their business questions. To achieve this mission, we endeavor to build the best business intelligence software in the world — a single, integrated platform supporting all styles of business intelligence through the easiest-to-use interface and delivery channel possible. We provide superior analytical performance to every business user in the format that suits them best — from high-level dashboards, to custom reports, to advanced analysis. We meticulously engineer our software to guarantee its reliability, scalability, security, and ease of administration for organizations of all sizes.
